

Arcatech is at the forefront of the telecommunications industry. Our devices help companies test their communications networks, helping them to provide reliable and fast networks for you and I to use every day. We are a global technology company building cutting edge technology within our field, used by the likes of Vodafone, Sky and the US military.

We are currently recruiting an enthusiastic **Full Stack Software Engineer** to join the team. You will have the opportunity to work within Cloud technologies, embedded systems, and web ecosystems. Flexible and remote working will be considered, however, candidates must be able to travel to the Lisburn facility. You will be part of a growing team dedicated to building performant products used by large multinational corporations across the globe.

**How you can help build a brighter future:**

Responsible for developing, designing and maintaining our suite of products; along with working on our new offerings. In this role you will be an integral part of developing our new cloud product. This will give exposure to Typescript, NodeJS, various cloud technologies, various database technologies and an insight into how the global telecommunications network works.

**Experience Required:**

A degree in Software Engineering, Electrical/Electronic Engineering, Computer Science or equivalent experience and skills.

- 2+ years' experience working on moderate to large scale software projects.
- Experience leading and supporting colleagues across the team.
- Extensive programming skills in one or more of: Python, JavaScript, Typescript (ideally).
- Experience in frontend and mostly backend development in the above languages, Typescript (ideally).
- Experience in an agile development and continuous integration and test frameworks.
- Experience with microservices based software architecture and API driven programming.
- Development experience on Linux or Unix platforms.
- Large Scale Application development experience.
- A knowledge of network technology would be beneficial.

**You Will Excite Us If You:**

- Are a strong team player and driven to succeed in an exciting and fast-paced environment.
- Have excellent communication, interpersonal and organisational skills.
- Can learn and accept responsibility for personal and professional development.

Our dynamic work environment attracts forward-thinking, hardworking, and caring people who strive to build what's next. We provide our employees with opportunities where they can innovate and build, while growing and developing their careers. We thrive with change and know the value diversity plays in bringing forth new insights and generating better solutions.

**Benefits:**

- Competitive salary depending on experience
- Company Pension
- On-site parking

- Wellness programme
